

Solace Deluxe Profile Bed

NHC Group's Solace Deluxe Profile Bed is specifically tailored for the unique requirements of care home settings. Featuring a robust steel design, crafted from eco-friendly materials, this state-of-the-art bed is controlled via a touch-button handset, ensuring ease of use. With features such as the Reverse Trendelenburg, Seating and Low positions, it provides residents with enhanced comfort and independence. Ensuring both resident satisfaction and care provider convenience, the Solace Deluxe is the ideal choice for modern care homes.

STANDARD FEATURES

Design & Finish: Sturdy steel structure coated with a durable powder finish, blending both strength and elegance.

Safety Measures: Incorporated full-length side rails to reinforce safety, greatly reducing risks of falls.

Effortless Assembly: Intuitive design enables easy assembly and disassembly, reducing both time and effort.

MAX USER WEIGHT: 180kg

KEY FEATURES

Eco-Friendly Design: Prioritising environmental sustainability, the Solace Deluxe is made with eco-friendly materials.

Superior Value: By ensuring high quality at a competitive price, the Solace Deluxe stands out as an excellent value for your investment.

Seamless Control: The touch-button control handset ensures that caregivers and residents can adjust bed positions effortlessly, promoting optimum safety and comfort. Additionally, the handset features a locking mechanism, ensuring settings remain uncompromised and safeguarding against unwanted adjustments.

Warranty: Benefit from a comprehensive 2-year warranty for peace of mind.

Positional Flexibility: Specialised features like Reverse Trendelenburg, Seating and Low positions are adept at meeting various resident needs, be it for a good night's sleep, reading, or medical checks.
